1. Purpose

The purpose of this Threat Intelligence Policy is to establish a framework for receiving, processing, and acting upon threat intelligence updates and alerts to enhance the security posture of HackTech.

2. Scope

This policy applies to all employees, contractors, and third-party entities who have access to HackTech's information systems and data.

3. Introduction

In order to accurately assess risk, manage incidents, and implement controls appropriately, it is crucial that HackTech maintains a clear picture of the threats it faces, both internally and externally. Knowledge of the groups active in launching attacks, their chosen targets, motivations, technologies, and techniques is essential to ensure that our security posture remains relevant to the evolving threats.

4. Threat Intelligence Sources:

HackTech utilizes a comprehensive threat intelligence solution that provides regular updates and alerts. These sources include, but are not limited to:

5. Roles and Responsibilities:

2.1. Security Team:

- Responsible for monitoring threat intelligence sources.

6. Threat Intelligence Process:

3.1. Collection:

- Continuously collect threat intelligence data from subscribed sources.

7. Enforcement:

- Any employee found to have violated this policy may be subject to disciplinary action.

8. Review and Maintenance:

- This policy will be reviewed annually or as needed to ensure its effectiveness and relevance.

9. Conclusion

By adhering to this threat intelligence policy, HackTech aims to enhance its security posture, effectively manage risks, and respond promptly to evolving threats. This approach ensures compliance with legal and regulatory requirements while fostering a proactive stance in safeguarding our information systems and assets.
